

## Disclosure of Conflict of Interest

### Definitions:

**Conflict of interest:** A conflict of interest is a set of conditions in which judgement or decisions concerning a primary interest (example a patients' welfare, the validity of research and/or quality of medical education) is unduly influenced by a secondary interest (personal or organizational benefit including financial gain, academic or career advancement, or other benefits to family, friends, or colleagues).

**Perceived conflict of interest:** A perceived conflict of interest is the appearance of a conflict of interest as judged by outside observers regardless of whether an actual conflict of interest exists.

**Real conflict of interest:** A real conflict of interest is when two or more interests are indisputably in conflict.

### The following describes the processes and requirements for gathering, managing and disclosing conflicts of interest to members:

All members must provide to CLyDRN a written description of all relationships with for-profit and not-for-profit organizations over the previous 2 years including (but not necessarily limited to):

- a) Any direct financial payments including receipt of honoraria;
- b) Membership on advisory boards or speakers' bureaus;
- c) Funded grants or clinical trials;
- d) Patents on a drug, product or device; and
- e) All other investments or relationships that could be seen by a reasonable, well-informed participant as having the potential to influence the content of the educational activity.

- I do not have a relationship with a for-profit and/or a not-for-profit organization to disclose.**
- I have a relationship with a for-profit and/or a not-for-profit organization to disclose.** Please indicate the organization(s) with which you have/had a relationship over the previous two years and briefly describe the nature of that relationship.

Nature of relationship(s)	Name of for-profit or not-for-profit organization(s)	Description of relationship(s)
Any direct financial payments including receipt of honoraria	Zoetis Boehringer-Ingelheim Merck	Delivered educational seminars to veterinarians and veterinary support staff on ticks and tick-borne diseases, for which I received honoraria. Attended sponsored workshops / conferences.
Membership on advisory boards or speakers' bureaus	Veterinarians without Borders	Chair of the Board of Directors (I really do not think there is any potential COI here with the network, but I included it anyways)
Funded grants or clinical trials	Pet Trust, PHAC	Currently I am involved in three tick-related funded projects through these organizations. (Again, I do not think this could pose a COI, but I included it anyways).
Patents on a drug, product or device		
All other investments or relationships that could be seen by a reasonable, well-informed member as having the potential to influence membership with the network		

By checking "I agree" you are acknowledging that the above information is accurate.
