

## Disclosure of Conflict of Interest

### Definitions:

**Conflict of interest:** A conflict of interest is a set of conditions in which judgement or decisions concerning a primary interest (example a patients' welfare, the validity of research and/or quality of medical education) is unduly influenced by a secondary interest (personal or organizational benefit including financial gain, academic or career advancement, or other benefits to family, friends, or colleagues).

**Perceived conflict of interest:** A perceived conflict of interest is the appearance of a conflict of interest as judged by outside observers regardless of whether an actual conflict of interest exists.

**Real conflict of interest:** A real conflict of interest is when two or more interests are indisputably in conflict.

### The following describes the processes and requirements for gathering, managing and disclosing conflicts of interest to members:

All members must provide to CLyDRN a written description of all relationships with for-profit and not-for-profit organizations over the previous 2 years including (but not necessarily limited to):
