

Disclosure of Conflict of Interest

Definitions:

Conflict of interest: A conflict of interest is a set of conditions in which judgement or decisions concerning a primary interest (example a patients' welfare, the validity of research and/or quality of medical education) is unduly influenced by a secondary interest (personal or organizational benefit including financial gain, academic or career advancement, or other benefits to family, friends, or colleagues).

Perceived conflict of interest: A perceived conflict of interest is the appearance of a conflict of interest as judged by outside observers regardless of whether an actual conflict of interest exists.

Real conflict of interest: A real conflict of interest is when two or more interests are indisputably in conflict.

The following describes the processes and requirements for gathering, managing and disclosing conflicts of interest to members:
