

CANADIAN LYME DISEASE  
RESEARCH NETWORK

## *Participants Needed...*

*Pillar 4 is currently conducting a research project to better understand the perspectives, experiences, beliefs, and knowledge of health practitioners regarding Lyme Disease (LD) in Canada. A very important step in their research study will be to identify healthcare practitioners to interview. LD patients' and their family members' recommendations regarding healthcare practitioners with which they have had challenging or effective LD experiences is a key step to this process. The survey will focus on patient and family member experiences with healthcare practitioners, specific to LD. Participating in this study will require the completion of one anonymous online survey and should take approximately 10-20 minutes of your time. If you have any questions related to this study, please email **Madison Robertson** ([12mar9@queensu.ca](mailto:12mar9@queensu.ca)). The survey can be found here: [https://queensu.qualtrics.com/jfe/form/SV\\_57jWsGBHBm00KFf](https://queensu.qualtrics.com/jfe/form/SV_57jWsGBHBm00KFf)*
