

CANADIAN LYME DISEASE
RESEARCH NETWORK

Evaluating the strengths, challenges and needs of key stakeholders in One Health tick and tick-borne disease surveillance in Canada.

Participants Needed...

If you work in any sector that deals with the health and wellbeing of humans, animals, or the environment, you are invited to participate in an online survey on the strengths, challenges and needs of key stakeholders in a cross-sectoral and multidisciplinary One Health approach to tick and tick-borne disease surveillance in Canada. The findings from this survey will help develop and evaluate a One Health approach to surveillance of ticks and tick-borne diseases in Canada.

If you wish to participate in the survey, please click on the link below. The survey will take approximately 15-20 minutes. Participation is voluntary and the survey is anonymous. You are free to withdraw at any point during the survey.

This study is led by a research team at the University of Guelph comprised of Cyril Akwo and Drs Katie Clow and Claire Jardine. The study is part of the research conducted by the Canadian Lyme Disease Research Network funded through the Canadian Institutes of Health Research.

If you have any questions about the survey, please feel free to email **Cyril Akwo** at cakwo@uoguelph.ca.
